To ABAP or Not to ABAP

- That is the question is it not?
- So many things change
 - Code repo
 - Release management
 - Technology
 - Tools
 - Cloud vs on-prem
- It feels like a choice
- But is it really?

Practical

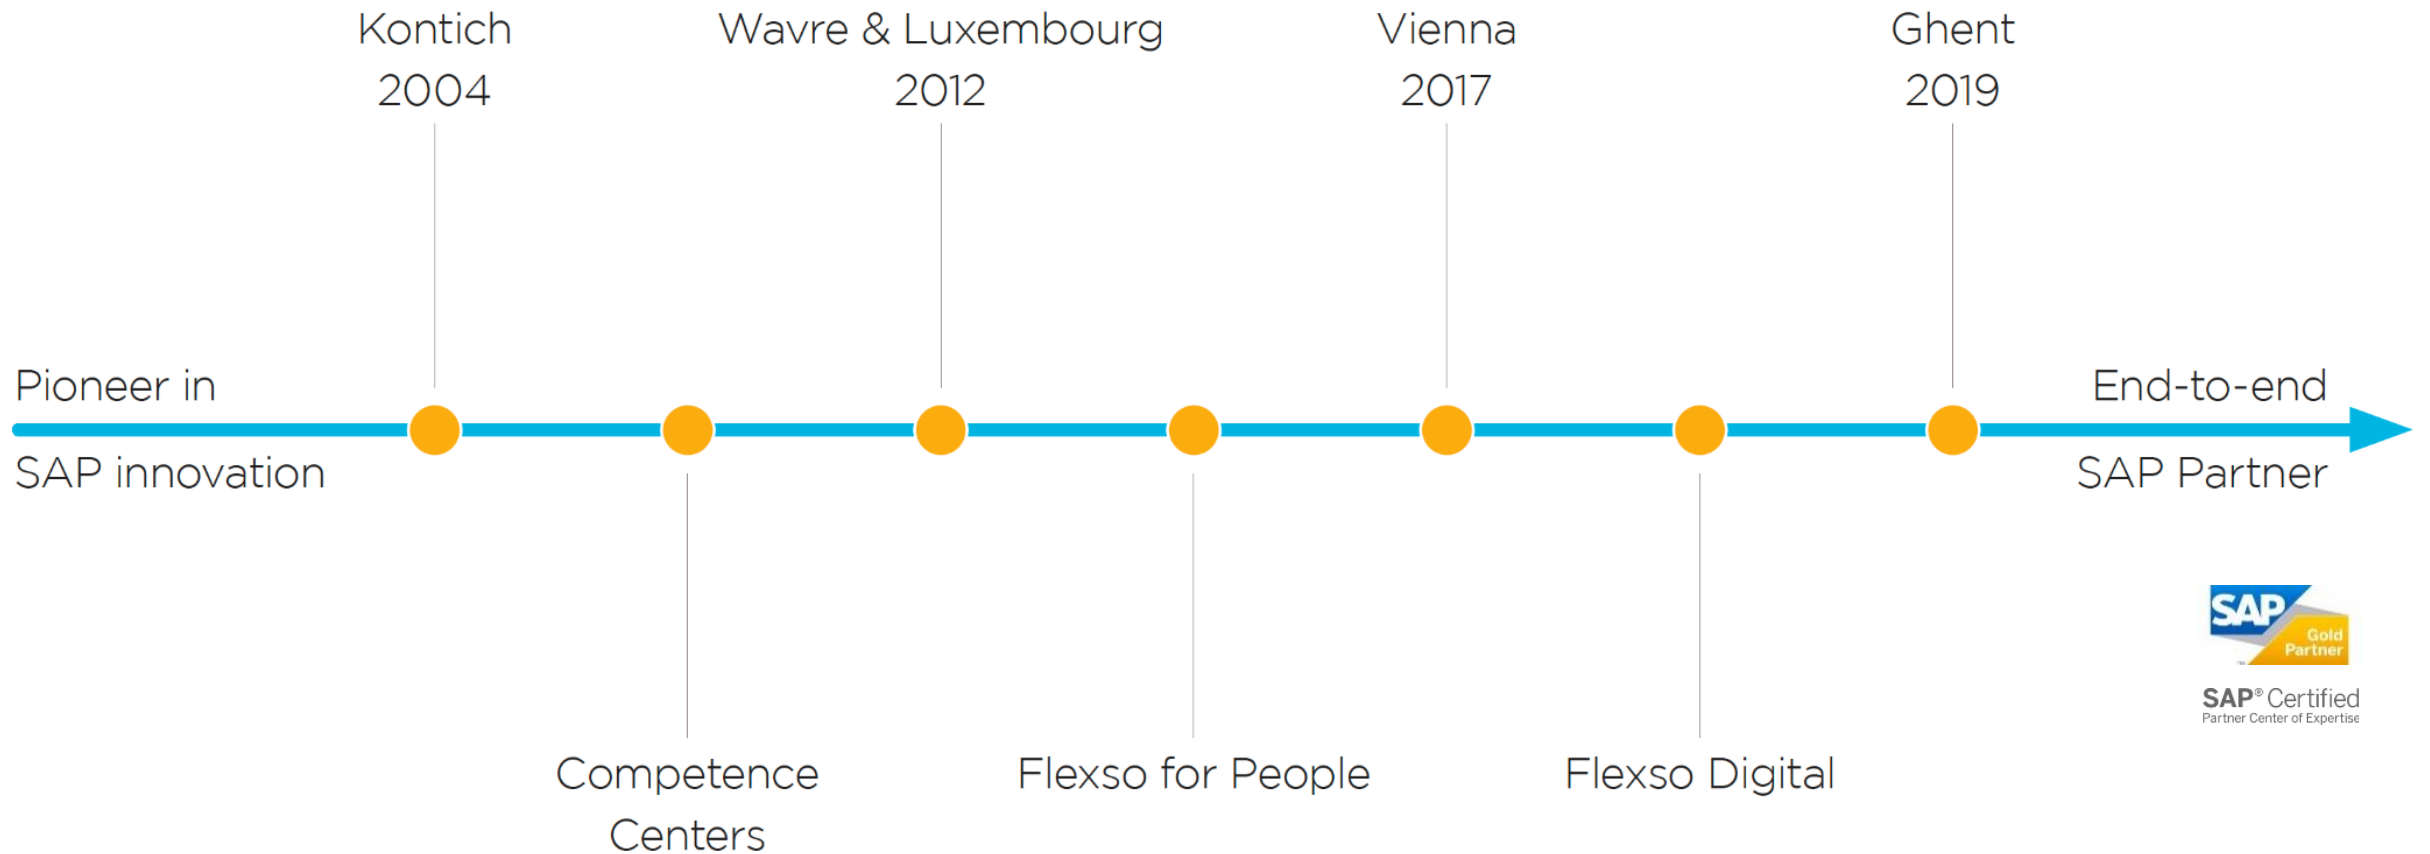

- In case of emergency go here
- WIFI:
- Toilet: door on the right in the hall
 - Wash hands and keep things clean
- 10 minute break between each session
- Coffee: Just follow the smell of beans
- Drinks: In the fridge

Wait, drinks?
